

# Articulated Jib Crane

---

## Features:

- ◆ Radial reach up to 15 feet
- ◆ Capacities available from 50 to 2000 LBs
- ◆ Continuous rotation 360 degrees
- ◆ Multiple hoist connections available for end of arm
- ◆ 5:1 safety factor
- ◆ Floor pedestal, overhead ceiling, machine, wall & column mounting options available

AIMCO Articulated Jib cranes are widely considered the finest available. The AIMCO bearing design assures smooth and effortless rotation allowing loads to be moved freely throughout the entire work circle.

Air or electrical lines are internal to the arms with rotating swivels or collector rings to maintain a continuous 360 degree rotation at the pivot bearings.

Capacities range from 50 LBs to 2000 LBs with radial reaches up to 15 feet are available. Each rotation joint is equipped with Timken tapered roller bearings, pre-greased and sealed providing a 5:1 safety factor.

**AIMCO Manufacturing can customize it's standard designs of lift assist equipment to suit your application**
